APPEAL FOR MUSICAL INSTRUMENTS

Donations for Nightingales Smriti Gram – India's First Integrated Dementia Care Village, Doddaballapur

Dear Sir / Madam,

Warm greetings to you.

Nightingales Medical Trust (NMT) is an NGO dedicated to improving the lives of older persons through compassionate and innovative age care services. We reach thousands of elders through a range of need-based programmes every month

We are happy to share that Nightingales Smriti Gram – India's First Integrated Dementia Care Village, near Doddaballapur, is nearing completion. Located just 36 km from Yelahanka, Smriti Gram is being developed as a national model of compassionate, person-centred and integrated dementia care.

The first phase, expected to become operational in September - October 2026, will include a 100-bed residential dementia care facility offering completely free care to economically marginalized persons living with dementia, along with a Training Academy and Research & Innovation Hub.

We firmly believe that financial circumstances should never determine the quality of dementia care a person receives.

Help us bring music to Smriti Gram

As part of our efforts to create a warm, stimulating and therapeutic environment, we are setting up a Music Therapy Room at Smriti Gram. Music can evoke memories, encourage self-expression, reduce anxiety and bring joy and meaningful engagement to people living with dementia

We are therefore seeking musical instruments in good working condition, such as:

Keyboards • Harmoniums • Tablas • Dholaks • Maracas • Tambourines • Flutes • Guitars • Violins • and other suitable instruments.

If you have instruments that are no longer in use, we would be grateful if you would consider donating them to Smriti Gram.

We invite you to be part of this meaningful initiative and help us create a place where every memory matters.

Thank you.

Warm regards,

S Premkumar Raja
Secretary and Co-founder
